# New Auto Laws

The new laws regarding the operation of motor vehicles went into effect Tuesday, August 1. In order to operate an auto a state license is required and all chauffeurs must obtain a driver's license from the secretary of state and any driver who operates a motor vehicle without a license may be arrested and fined. The following regulations are worth remembering by all owners of motor vehicles:

"Any person operating a motor vehicle who, knowing that injury has been caused to a person or property, due to the culpability of the said operator, or to accident, leaves the place of said injury or

accident, without stopping and giving his name, residence, including street and street number and operator's license number to the injured party, or to a police officer, or in case no police officer is in the vicinity of said injury or accident, then reporting the same to the nearest police station, or judicial officer, shall be guilty of a felony punishable by a fine of not more than \$500, or by imprisonment for a term of two years, or by both such fine and imprisonment.

"In approaching or passing a car of a street railway, which has been stopped to allow passengers to alight or embark, the operator of every motor vehicle shall slow down, and if it be necessary for the safety of the public, he shall bring said car to a full stop.

"Upon approaching a pedestrian who is upon the traveled part of any highway and not upon the sidewalk, and upon approaching an intersecting highway, or a curve or a corner in a highway, where the operator's view is obstructed, every person operating a motor vehicle shall slow down and give a timely signal with his bell horn, or other device for signaling."

"A violation of the foregoing regulation is punishable by a fine of not less than \$25 nor more than \$100 and for the second violation a fine of not less than \$50, nor more than \$500, or by imprisonment in the county jail not more than sixty days."

# Ho, Ho, A Circus!

The circus is coming, mamma, the circus is coming ha, ha, I am going, mamma, but I will have to work papa, ha ha. Hagenbeck and Wallace's shows will be in Marshall Friday August 11th. The circus trains will arrive early in the morning and all the boys, big and little, will be down to see the show come in. Mr. Frank J. O'Donnel, a Dutchman from Cork, the press representative was here Friday and placed the advertising for the coming event.

There was a scramble among the boys to get to O'Donnel to speak for the privilege of carrying water to the elephant. Frank Stone beat F. P. Williams by a few feet because he is too fat to run. Thos. Fisher, the popular drug list was given the order to turn-

ish his new toilet water for the bath of Miss Muggy Hippo. The lady is very fastidious and particular about her baths. Arthur Clough was given the contract for supplying the hips for the hopping monkeys. J. T. McAllister was awarded the job of adjusting the rings for the zebras. The head toggery for the birds of paradise will be looked after by Dan Porter, Jr.

Mr. P. M. Walker will see that the dogs have plenty of bark, while Louis Poucher will shave the tickets.

While in the city, Mr. O'Donnel tried to engage Henry Hamilton to take Happy Hooligan's parts, but Henry was afraid he couldn't fill the bill. He referred O'Donnel to C. L. Reppenhagen who we understand has undertaken the job.

The Sons of Rest will be caged and form an interesting collection of home talent. There's no danger of them escaping as it requires too much of an effort. I. M. Lazy will have charge of this exhibit.

It will be a great day in Marshall when the Hagenbeck and the Wallace shows come to town.

# Apples High

"Farmers who are lucky enough to have an orchard can pick up president of the Funsten Dried some nice extra money by taking a little trouble," said R. E. Funsten Fruit & Nut Co., of St. Louis, largest concern of its kind in the world, in a recent interview.

"If they will sun dry or evaporate every apple, not used some more profitable way, they can command prices ranging to as high as 100 per cent more than ever before received at this time of year. This is not due to any shortage of the apple crop, but to the shortage and scarcity of peaches, prunes, apricots and raisins which has resulted in a tremendously increased demand for dried and evaporated apples.

"Just to show what's happening, evaporated apples sold July last year year are eagerly sought at year at five to six cents and this twelve to fifteen cents a pound. So you see there's a chance for a farmer with only a few apple trees to make some money as well as the professional orchardist, by taking a little trouble.

"Of course it pays to take apples to an evaporator if one is near, but where not, apples cut in quarters and dried in the sun do well."

Mr. Funsten's firm is not a commission house, but one of the largest packers of dried fruit in the country, and has done much to establish Western dried apples is not only every American market, but in every European market as well, and therefore is in position to know the market conditions of the world at large, and what he says may be considered as good tip by farmers and orchardists who have apples this year.

# Agricultural Certainty

Idaho Falls, Idaho, July 15.—The great section of country known as the Upper Snake River Valley, Idaho, with Idaho Falls the geographical and trade center, is in the midst of the greatest season of prosperity in its history of twenty full years without even a partial crop failure in any particular to be entered against its credit. Carefully kept statistics prove beyond question that the crop production in the great valley of over a million, three hundred thousand acres, has not varied seven per cent with in the past twenty years, or since agriculture first became a factor in the industries of the state of Idaho. Irrigation has been, and is the keynote of the story of success. Irrigation means water when, where and as often as you need it and no more, combined with a soil of wonderful fertility, a climate unsurpassed and opportunity unexcelled. In sharp contrast with the story of heat and drouth is the crop report from the irrigated districts of Idaho, which will this year produce millions of bushels of wheat and other grains and will be the world's storehouse and source of supply for potatoes, hay, fruit, vegetables and livestock. Do you want to share the prosperity, on either an irrigated tract or take up a government claim which will produce you 25 bushels of wheat to the acre. Write to the secretary of the Club of Commerce Idaho Falls, Idaho.

# Wove a Paper Rug

Mrs. Mary McReynolds one of Grand Pass' old citizens, last week completed a paper rug for Mrs. Pauline Tracy, of this city, and sent it down Saturday by Mr. Chas. DeMoss. The rug is a hand some piece of workmanship and shows some expert weaving especially for a lady of her advanced years. Mrs. McReynolds is one of the finest weavers in the county and takes a great interest in her work. Mrs. Tracy is greatly pleased with the rug.

# Overtaxed

Hundreds of Marshall Readers Know What it Means

The kidneys are overtaxed. Have too much to do. They tell about it in many aches and pains—Backache, weariness, headache. Early symptoms of kidney ills. Urinary troubles. Bright's disease follows.

A Higginsville citizen tells here a reliable remedy for kidney ills. C. A. Willard, South Hill, Higginsville, Mo., says: "When I saw Doan's Kidney Pills highly advertised, I procured a box as I was in need of a kidney remedy. However, when I reached home, I met a gentleman who was in far worse shape than I. He suffered almost constantly from severe pains in his back and was caused much annoyance by irregular passages of the kidney secretions. I gave him the box and after he had taken the contents, there was a great change for the better. The backache soon disappeared and his kidneys became normal. I recommend Doan's Kidney Pills highly."

For sale by all dealers. Price 50 cents. Foster-McBum Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

# Local Items

Rev. O. S. Russell is expected home tomorrow.

Fred Morris and family have gone to Fairfield, Iowa, on a visit.

Mr. and Mrs. A. Peecher spent Sunday at McAllister Springs.

Mrs. O. M. Robinson and daughter left for Kansas City Tuesday to reside.

Alfred Walker of Corder was here yesterday on his way to Chambers to visit homefolks.

M. G. Kleen was here from Mt. Leonard yesterday. He had a bandaged hand injured in an accident Sunday night when his big gray horse fell into a cistern and

was killed. He was helping draw the horse up when a break caused the rope to give him a sudden jerk.

A jolly crowd of young folks went to Dean Durrett's to a watermelon supper Tuesday night on a hay wagon. The following attended, Mr. and Mrs. John Keehart, Miss Eva Smith, of Napton, Misses Gladys and Leah Woods, Ross Jones and George Twilling. They all report a fine time.

On or about August 1st a special freight train consisting of forty cars of cast iron pipe will pass thru our city on the Chicago & Alton Railroad enroute from Birmingham, Ala., consigned to the City of San Diego, California. This is the first train-load of an order of eight thousands tons of cast iron pipe which was awarded by the City of San Diego to the United States Cast Iron Pipe Company, Birmingham, Ala., thru their San Francisco agency. This concern is the largest manufactory of cast iron pipe in the world. This pipe is to be used in the construction of a new water system in preparation for the Panama-Pacific California Exposition which is to be held at San Diego in 1915. The Chicago & Alton in connection with the Southern Railway System and the Santa Fe were chosen to handle this train owing to the excellent freight service rendered by these roads.

# Pig Turned Philosopher

Once there was a pig with a sensitive snout and a quirky tail. His feet were black with the muck of the sty and his thick yellow skin, once soft and pink, was covered with stiff bristles.

The pig proved beyond peradventure that his natural function was to wallow and root and gorge, but one day he took his snout out of the trough and said, "Bless me, what's the use of being a mere pig! I have specialized on swill long enough; it bores me. This sty is fine, after its sort, but as a constant passion and environment it gets on one's nerves. I need a fad, a folly, a dash of enlivening bitters in the cup of existence. Let me see,—oh, yes, I'll be a philosopher, at least Sundays, and tell the nightingales how to really sing.

And it was so, and the reporters waited on the pig and put his aphorisms into the daily papers and the people said, "Oh, my!"

This was some time ago. The pig has since passed into peapins and pork and lard and toothbrushes and fertilizer, and is now a very useful though thoroughly partitioned, contribution to the social welfare.—Richard Wightman in "Success Magazine."
